

Sturm Gruppe is a general contractor in mechanical engineering and plant construction supplying well-known customers worldwide. The mixture of around 500 professionals from various fields has formed the basis for its success for more than 25 years. Satisfied employees are the foundation for a strong, successful company. For this reason, the Sturm Gruppe offers various benefits which contribute to the satisfaction in everyday working life and strengthen the team spirit - today and in the future.

SPS - / S7- PROGRAMMER (F/M/D) Control Technology – Position now open

Permanent position in Salching

Your tasks

- Project planning and software development for PLC controls (preferably S7)
- Creation of associated visualisations and analysis of possible error sources
- Development of customer-specific solutions through the creation and further development of new and existing automation concepts
- Active troubleshooting and optimisation of control and regulation processes at our plants
- Documentation of the results in functional and performance descriptions
- Commissioning of special machines at our headquarters and at the customer's site
- Implementation of customer training courses at our plants

Your qualifications and experience

- Degree as technician, master craftsman or engineer with a background in automation technology or comparable qualification
- Sound knowledge of the S7 development environment (SIMATIC Manager/TIA Portal) and visualisation system
- Experience with electrical circuit diagrams
- Ideally good knowledge of measurement and control technology
- Customer-oriented and cost-conscious action
- Independent, structured and anticipatory way of working
- You are proactive and enjoy team work
- Good knowledge of written and spoken German

Please send your detailed application documents, stating your salary expectations and earliest starting date, as a PDF document by e-mail to: bewerbung@sturm-gruppe.com

We assure you that your details will be treated with strict confidentiality.
